ASG Update: Action Planning

- Develop Country Action Plans
 - Country's current and future work in methane reduction
 - Could be part of country's climate strategy such as NAMAs
 - Benefit: 1) More communication in the global community
2) Guide can help identify country's needs and opportunities for methane reductions
- Revised Action Planning guidance as of July 2013:
 - www.globalmethane.org/wastewater/index.aspx
 - U.S. and European Commission completed

ASG Update: 10th Anniversary

- 10 years of global methane reductions and methane education
- To highlight GMI's accomplishments:
 - 1) Develop video and pamphlet
 - Details will be forthcoming on how Partners can participate.
 - Anticipate a call for any video footage available.
 - 2) All Partnership-wide Meeting 2014
 - Location: will be announced soon
 - Date: most likely October or November 2014

Country-Specific Action Plans

- Overview and Purpose
- Template to Follow
- Schedule for Completion
