

Methane to Markets

Coal Subcommittee Decisions

30 April 2008

Country Specific Strategies

- Many thanks for those countries who presented their strategies during the meeting.
- Next steps
 - Encourage remaining countries to develop strategies and send them to ASG for review and comment
 - Countries to update strategies to address or include suggestions/comments discussed yesterday
 - Include list of resources, expertise available
 - Include list of specific assistance desired
 - Is consistent format desirable?
 - Aim to have revised strategies available on the web by end of June

Coal Recommendations for Enhancing PN Participation (1)

- Improving subcomm meetings
 - Co-locate meetings with technical workshop, or other key event
 - Set aside time for focused discussion, presentations from PN
 - PN appreciates technical content and discussion of specific technologies and project opportunities

Coal Recommendations for Enhancing PN Participation (2)

- Formal Awards not recommended
 - Limited utility for non-U.S. PN members
 - Potential for controversy
 - Process could be time/resource intensive (i.e. developing criteria, fair and transparent processes etc...)

- Highlighting successful projects informally is recommended
 - Case studies of projects on web, outreach materials, at meetings including future Expo

Other next steps

- ID participants to participate in Expo Taskforce
 - Co-chairs?
 - Others
- ID coordinator for Partnership-wide report
 - ASG / Co-chairs to follow up with email
- Ideas for future subcomm meetings
 - December 15th meeting tentative
 - 2009 subcommittee – ideas for location etc..
- Request ASG to revise PN list on web to be more user friendly
 - Searchable by PN type (e.g. tech provider, finance, project developer, NGO, etc..)
- Request updated info for Global Overview country profile and database of CMM projects
