

Global Methane Initiative

Administrative Support Group

March 14, 2014

Agriculture, MSW and Wastewater Tri-Subcommittee Meeting
Florianopolis, Santa Catarina, Brazil

Monica Shimamura
Director, Administrative Support Group

Global Methane Initiative

GMI is a voluntary, multilateral partnership that aims to reduce global methane emissions and to advance the abatement, recovery and use of methane as a valuable clean energy source. We do this by creating an international network of partner governments, private sector members, development banks, universities and NGO's in order to build capacity, develop strategies and markets, and remove barriers to project development for methane reduction in Partner Countries.

Oil and Gas Systems

Coal Mines

Municipal Solid Waste

5 Methane
Sectors:

Agro-industry Waste & Manure Management

Municipal Wastewater

GMI's Charter

- 43 Partner Countries
 - All top-10 methane emitting countries
 - 70% of global methane emissions
- Over 1,300 private sector, NGO, and multilateral Project Network Members
- U.S. EPA hosts the Secretariat (known as the Administrative Support Group)
 - Providing communication to technical sectors, partner countries, and PN members
 - Organizes workshops and meetings
 - Develops and maintains communication tools

GMI Project Network

- A community of private-sector entities, financial institutions, and non-governmental organizations with an interest in methane abatement, recovery and use projects.
- Benefits of joining the GMI Project Network:
 - Participate in GMI activities and meetings.
 - Gain direct access to methane technical expertise.
 - Benefit from cutting-edge news and information.
 - Identify and secure project development funding.
 - Submit project ideas and activities to sector subcommittees.

ASG Secretariat Activities

- 10-year celebration!
 - GMI All-Partnership Meeting—2015 date and location TBD

 - All-sector GMI video (including modules on coal mine methane, oil and gas, and biogas sectors)

 - Infographic pamphlet
 - What is methane?
 - Why does methane mitigation matter?
 - What is GMI's role in reducing methane emissions?

ASG Secretariat Activities

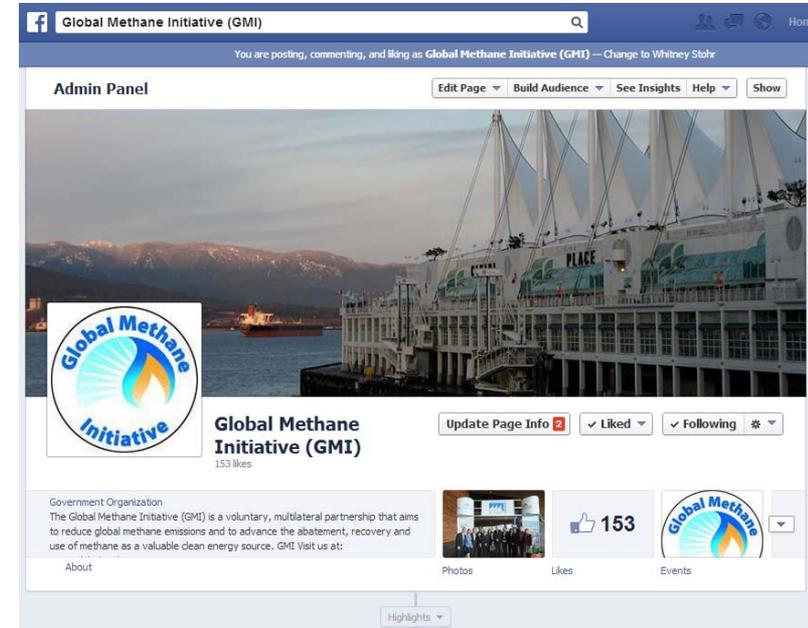

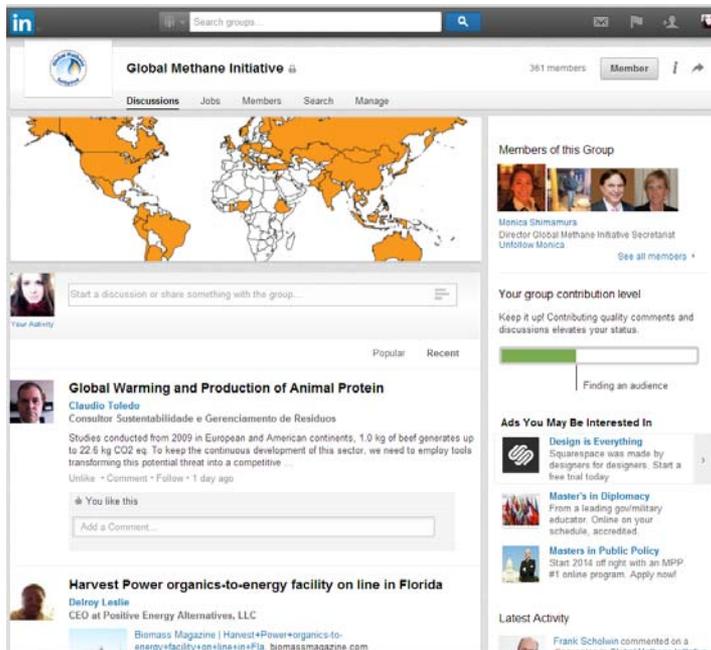

- GMI website updates
 - New map will show GMI projects worldwide
 - In development!

ASG Secretariat Activities

- Marketing the GMI brand
 - Social media—Follow GMI on Facebook and LinkedIn.

ASG Secretariat Activities

- Methane International (MI) –quarterly bulletin
 - New projects and activities
 - Subcommittee updates, GMI outreach
 - Upcoming events
- Most recent: February 2014, MI #33
 - New member Saudi Arabia
 - Recent CMM projects in Australia
 - Overview of recent developments in GMI Partner countries (project development, laws/policy changes)
 - What can you do?
Please send country updates and recent methane news to asg@globalmethane.org.

Non-Biogas Sector Activities

Coal

- Past subcommittee meeting with UNECE Ad Hoc Group of Experts on CMM Geneva (Switzerland), 19 November 2013

Oil & Gas

- Upcoming subcommittee meeting San Antonio, Texas (USA), 12 May 2014

Thank you!
