

Global Methane Initiative Steering Committee Meeting

**Update on United States Activities
in Support of GMI**

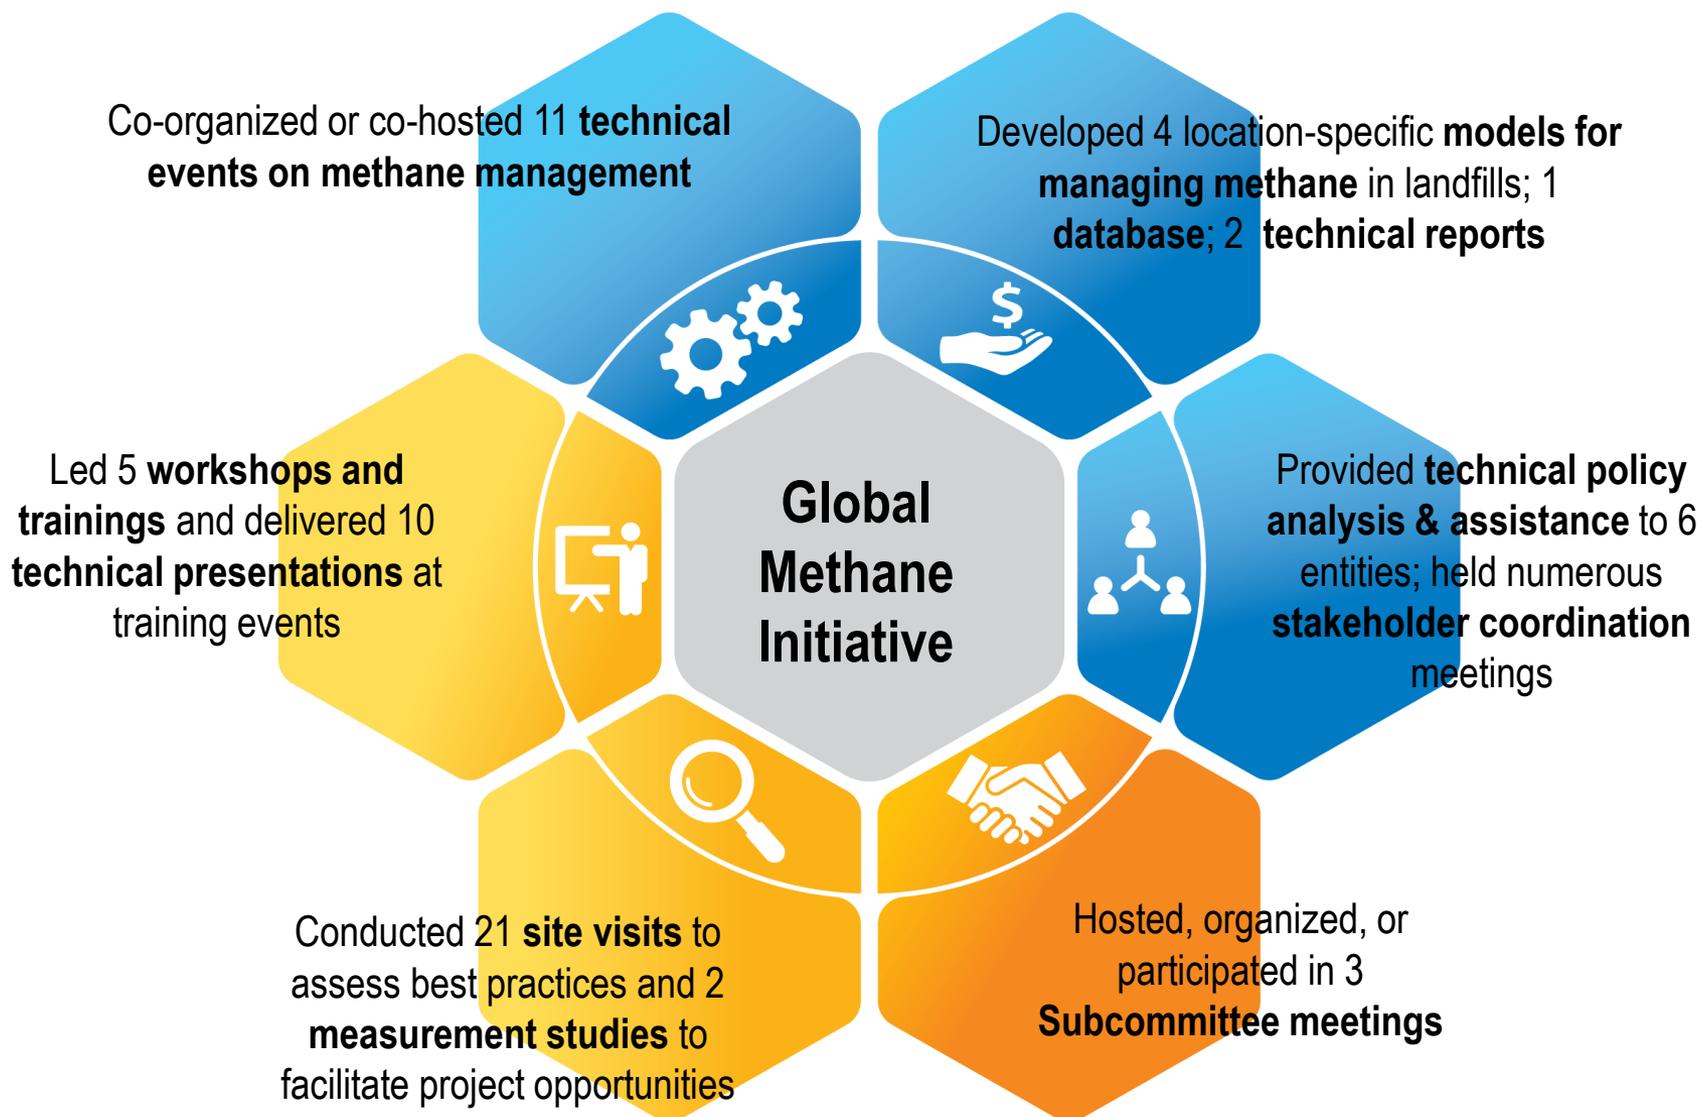

**Global Methane Forum
Toronto, Ontario
16-18 April 2018**

US Collaboration in Support of GMI

- US EPA serves as GMI Administrative Support Group
- US continues to provide technical assistance across all five sectors
 - Conducts site-specific technical assessments, measurement studies
 - Leads technical trainings and workshops
 - Develops, updates online tools and resources
- US supports collaborative efforts with UNECE oil & gas and coal mining Expert Groups
 - Opened Center for Excellence on Coal Mine Methane (CMM) in 2017 – Poland and China
 - Conducted CMM best practice workshops in 2017 – India, Kazakhstan, China, and Poland
 - Organized joint meetings of the GMI Oil & Gas Subcommittee and UNECE Group of Experts on Gas

US Accomplishments - 2017

Emission Reductions

As of 2017, US-supported projects have yielded cumulative reductions of ~ 430 MMTCO₂e.
